

## Supplements Guide

### *What about SUPPLEMENTS ? ...its so confusing 'out there' ?*

Below is an 'extract' from my recommended supplement 'starters pack' these are 'hand picked' and tested by myself 'personally' over the last 10 years 'without ' SALES-HYPE !.....they simply 'work' and come from 'Australian owned and operated companies' so the 'profits 'stay in Australia and support 'local ' industry !

#### **Supplement Starter Pack is supplied by Healy's .**

The reason for this is the Navigation through the 'supplement minefield' and over -commercialization of 'products' on the market can be a 'real nightmare'.

Everybody is an 'expert' and all with conflicting 'opinions' on what works and why.

**Part of our 'Professional Advice' based on 'real experience' is the basis for our recommended product list 'NOT' what a 'sales rep says' but what really works based on our trail testing over the years and 'before and after' photographic evidence accordingly.**

We also have top 'technical advice' from our reliable sources that looks well 'beyond' the Sales Hype of the retail 'supplement store'.

Also , the products 'specified' by Healy's are tried and tested over the last 10 years deviation from the Recommendations may not produce the desired results

#### **SUPPLEMENT PRESCRIPTION IS PART OF OUR SERVICE**
