### What is the Difference regarding RE-MANUFACTURED Gym EQUIPMENT?

#### **The Remanufactured Equipment is Better than New Why ?**

- a) Complete repaint and power-coating (sand blast + Heat painted)
- b) Completely new upholstery on all equipment
- c) Completely new bearings and every moving part, chains, bolts, cables , etc
- d) 2 years warranty on all parts and labor  
in other words 'Better then New' why ?

many of the 'new versions of American Machines (especially Cardio) are no longer manufactured in USA but, in China or Asia (under License) the Quality of steel and Electronics are definitely not the same standard as machinery manufactured in the USA in the 70's ,80's & 90,s .....

A QUALITY RE-MANUFACTURED MACHINE has all worn working parts replaced (mechanical & electronic) but you still have the original quality Steel frames and superstructure (power coated) so the end result .... **BETTER THEN BRAND NEW !** and with 2 year warranty on parts and labor (includes certificate) (it's a bit like the body work and Steel used in the Classic USA FORDS 'Classic and not Plastic' built to 'last a lifetime')

Healy's Health & Fitness ABN 50 711 604 560 'Pre-Owned' Gym Equipment only deals with Top Australian and USA Brands that have stood the test of time like Nautilus ® LifeFitness ® Magnum ® CalGym ® Universal ® These Brands built in the 1970's 80's & 90's were built to last a life time !

I know as I have used all of these Brands myself over the Last 30 years in my Health centers and recommend them to my Clients AS THE BEST AVAILABLE especially the Bio-mechanics of the machines as a fully Government Recognized & Certified Professional Personal Trainer and Sports Coach

Good Quality 'Pre-Owned' machines are also available no warranty applies

However repairs and maintenance can be arranged by subcontracting to Healy's or a preferred Agent at the Clients Expense .

Please also note that these Machines are **Commercial 'Heavy Duty' Standard** and as such have extremely low maintenance, and are built to handle continuous operation .

In a Corporate Gym Setting or Personal Home Gym setting the lifetime of the equipment is extended according to the hours of use which is minimal compared to what they have be built for.

This means (a) they will never wear out (b) have great re-sale value
